Best Practices of Institution.

- Kannada University, inter alia, is known for its innovative practices. With a view to achieving quality in whatever we do, with the ultimate objective of achieving excellence our teacher-researchers have been innovative in their classroom and off the classroom practices. This criterion has three key aspects; Internal Quality Assurance System; Inclusive Practices and Stakeholder Relationship.
- The project proposals of the departments and of the individual faculty members and their evaluation are subject to scrutiny by statutory bodies like Executive council, BOS, internal and external experts the Vice-Chancellor, the individual faculty deans and the Deans' Committee.
- Our Scholars have been developing and using innovative approaches in their respective disciplines in respect of research methodologies, research topics, Kannada language and development.
- Given the changes, challenges and opportunities that are being engendered by the ongoing mega process of globalization our researchers in various departments have been reengineering their approaches to classroom and off the classroom practices to address the current and emerging concerns of the society, economy and policy.
- The University has been sensitizing and conscientising the students and teachers and also the elected representatives about their citizenship role and social responsibilities in the seminars and workshops the University faculty holds in the campus neighbourhood and in different parts of the state.
- The stakeholders satisfaction, among other things is based on such things as; the relatively high quality of our research in general and that of our action research which has bearing on government policies and programs; the publications of our University on diverse aspects of life; the contextually relevant articles of the faculty, which get published in Kannada dailies and periodicals; and the stand that our teachers take on the current problems of public interest. As such our University has been getting solicited and unsolicited help, assistance and co-operation from our stakeholders;
- Our extension activities are fully community oriented-holding educative programs about gender issues such as reproductive health, child care etc. Efforts to strengthen the neighbourhood communities by actively participating in the Performance Appraisal Programs of Panchayath Raj Institutions Tribal educative program preserve historical heritage etc.
- The teaching-learning methods that we use have been contributing significantly to the performance of our student-researchers. The faculty members have been using innovative approaches to make learning an inner organic need. The University has been attracting students belonging to disadvantaged sections, including the differently able, by extending the facilities and assistance which they richly deserve.
- The University has developed its own system of complaint management. There are committees to receive and resolve complaints. The Sexual Harassment Inquiry Committee is there to handle sexual harassment-related complaints. Anti Ragging Cell is also actively working in the University. All other kinds of complaints are attended by the Deans Committee. The Vice-Chancellor constitutes special committees. If necessary, to deal with extraordinary complaints.
